

FRANKLIN COUNTY SNAPSHOT¹

Housing

In 2025, 17% of Franklin County respondents reported housing issues that were a direct result of COVID-19.²

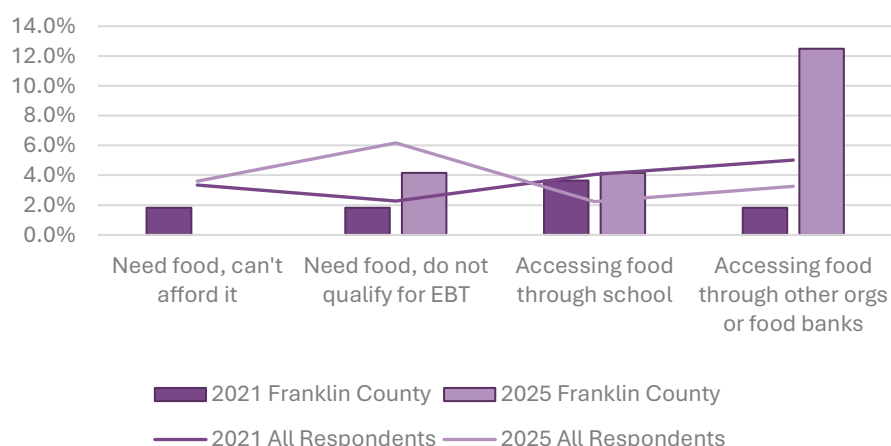

Figure Franklin 1: "Do any of these housing issues apply to you as a direct result of COVID-19?"

Accessing food

In 2025, 29% of Franklin County respondents were having trouble accessing food. This percentage has significantly increased from 7% in 2021.³

Figure Franklin 2: "If you are having difficulty accessing food, which of these apply?"

¹ Fewer than 10 respondents indicated caring for children or adults living with them in 2025. These data are not included in this snapshot.

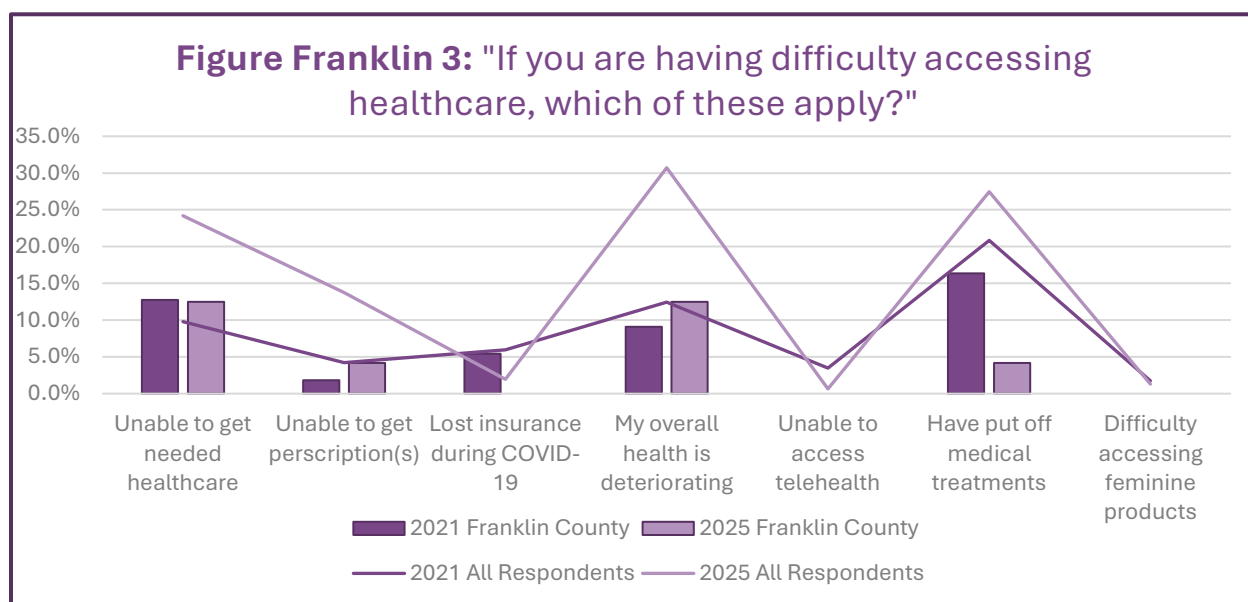

² In 2021, respondents did not have an option to indicate "none of these apply", therefore, for that year's data, it is not possible to see the percent of the total that experienced housing issues. For clarity, only 2025 county-data is reported here.

³ Due to the relatively small number of participants, this change may not reflect the lived realities of most families in Franklin County, but still mark a notable change. In 2021, only 4 of 55 survey participants indicated difficulty accessing food and in 2025, 7 of 24 did so.

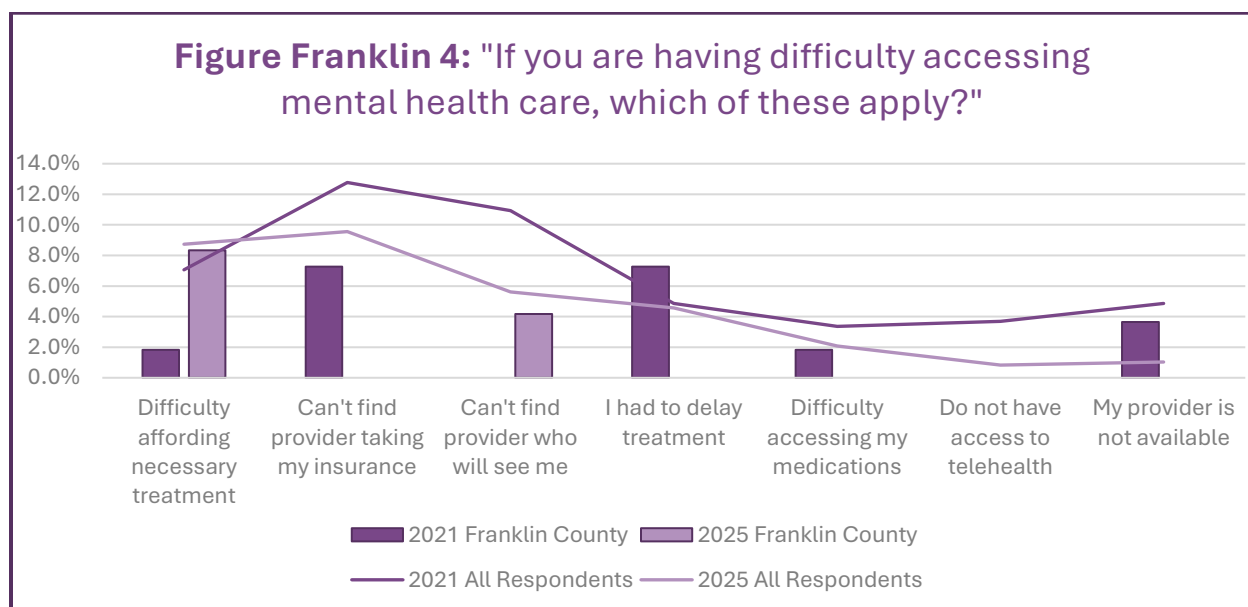

Healthcare

In 2025, 29% of Franklin County respondents were having difficulty accessing healthcare. This represents an increase from 22% in 2021.

In 2025, 21% of Franklin County respondents had experienced discrimination in healthcare settings.

In 2025, 4% of Franklin County respondents were having difficulty accessing mental healthcare, compared to 13% who were having difficulty in 2021.
