

NORFOLK COUNTY SNAPSHOT¹

Housing

In 2025, 8% of Norfolk County respondents reported housing issues that were a direct result of COVID-19.²

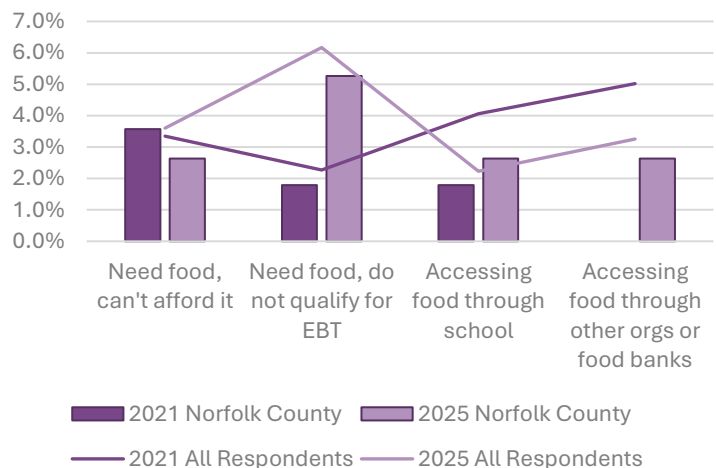

Figure Norfolk 1: "Do any of these housing issues apply to you as a direct result of COVID-19?"

Accessing food

In 2025, 11% of Norfolk County respondents were having trouble accessing food. This represents an increase from 5% in 2021.

Figure Norfolk 2: "If you are having difficulty accessing food, which of these apply?"

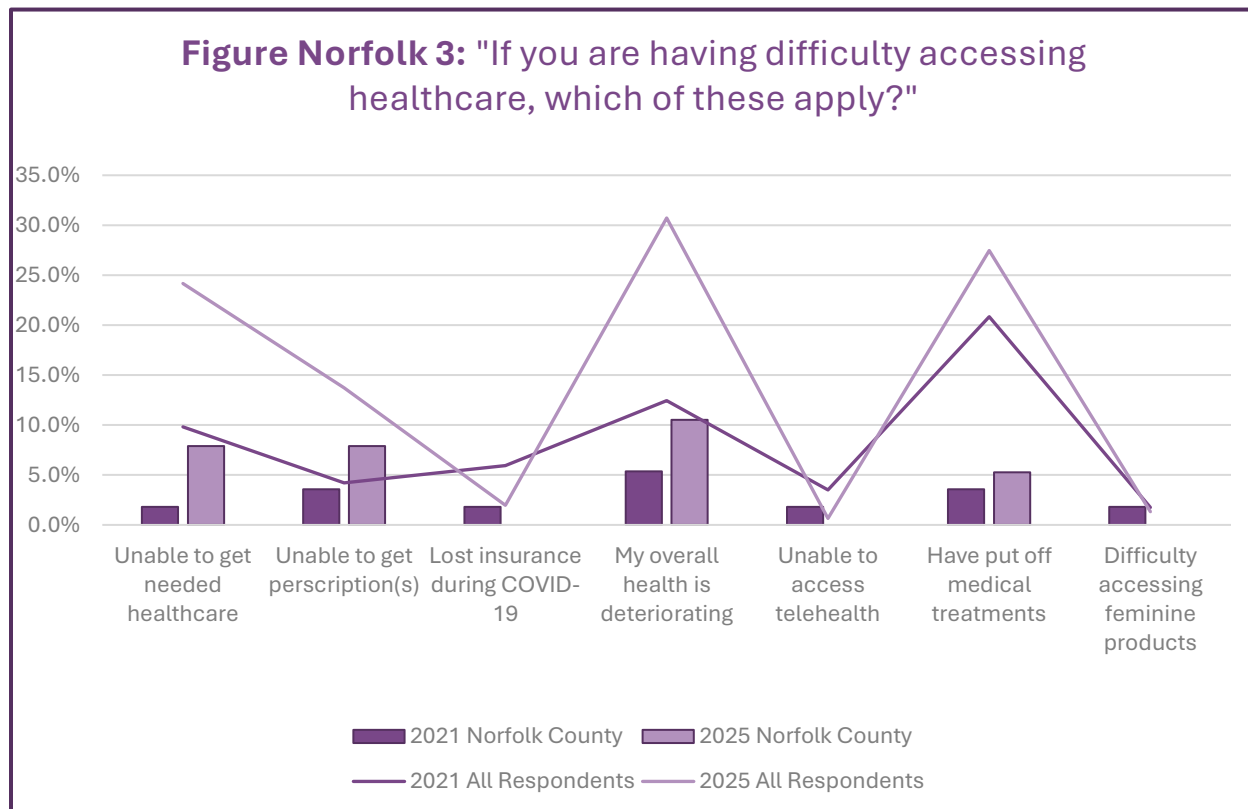

¹ Fewer than 10 respondents indicated caring for children or adults living with them in 2025. These data are not included in this snapshot.

² In 2021, respondents did not have an option to indicate "none of these apply", therefore, for that year's data, it is not possible to see the percent of the total that experienced housing issues. For clarity, only 2025 county-data is reported here.

Healthcare

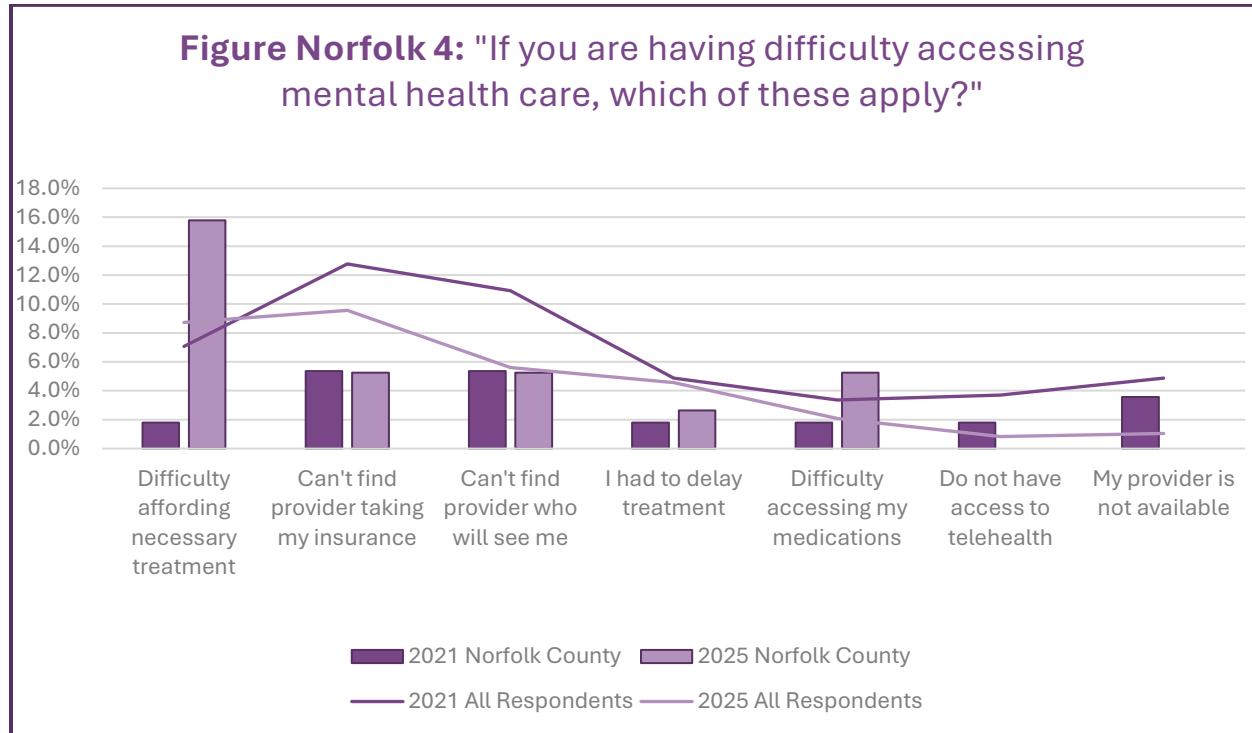

In 2025, 16% of Norfolk County respondents were having difficulty accessing healthcare. This percentage has quadrupled since 2021, when only 4% of Norfolk County respondents were experiencing difficulty.³

In 2025, 29% of Norfolk County respondents had experienced discrimination in healthcare settings.

³ Due to the relatively small number of participants, this change may not reflect the lived realities of most families in Norfolk County, but still mark a notable change. In 2021, only 2 of 56 survey participants indicated difficulty accessing healthcare and in 2025, 6 of 38 did so.

In 2025, 16% of Norfolk County respondents were having difficulty accessing mental healthcare. This percentage has remained constant since 2021.
